

European IT Certification Curriculum Self-Learning Preparatory Materials

EITC/WD/WFF Webflow Fundamentals

This document constitutes European IT Certification curriculum self-learning preparatory material for the EITC/WD/WFF Webflow Fundamentals programme.

This self-learning preparatory material covers requirements of the corresponding EITC certification programme examination. It is intended to facilitate certification programme's participant learning and preparation towards the EITC/WD/WFF Webflow Fundamentals programme examination. The knowledge contained within the material is sufficient to pass the corresponding EITC certification examination in regard to relevant curriculum parts. The document specifies the knowledge and skills that participants of the EITC/WD/WFF Webflow Fundamentals certification programme should have in order to attain the corresponding EITC certificate.

Disclaimer

This document has been automatically generated and published based on the most recent updates of the EITC/WD/WFF Webflow Fundamentals certification programme curriculum as published on its relevant webpage, accessible at:

https://eitca.org/certification/eitc-wd-wff-webflow-fundamentals/

As such, despite every effort to make it complete and corresponding with the current EITC curriculum it may contain inaccuracies and incomplete sections, subject to ongoing updates and corrections directly on the EITC webpage. No warranty is given by EITCl as a publisher in regard to completeness of the information contained within the document and neither shall EITCl be responsible or liable for any errors, omissions, inaccuracies, losses or damages whatsoever arising by virtue of such information or any instructions or advice contained within this publication. Changes in the document may be made by EITCl at its own discretion and at any time without notice, to maintain relevance of the self-learning material with the most current EITC curriculum. The self-learning preparatory material is provided by EITCl free of charge and does not constitute the paid certification service, the costs of which cover examination, certification and verification procedures, as well as related infrastructures.
